

DIN3352F4

Resilient seated gate valve

软密封闸阀

New

应用行业/Application

- 城市给排水 Water supply
- 污水处理 Waste water treatment and Sewerage
- 环保行业 Environment protection industry
- 建筑行业等 Building industry etc.

特点/Characteristic

- 整体阀杆设计;
- 三道O型圈密封环, 效果好, 维修方便;
- 阀板整体注胶, 橡胶弹性好, 附着力强;
- 阀板新结构, 定位好, 扭力小;
- 双线密封, 提高了密封性能;
- 零部件互换性好。
- Whole stem design;
- Three O-rings for seal, with good effect and can be protected and maintained conveniently
- The rubber of disc is poured, with good flexibility and strong adhesive attraction;
- New design of disc, with good orientation and light torque.
- Double-seated design improves the leak tightness.
- Good exchange of valve parts.
